

2021.6.1~

Higashiura

How to Separate and Throw Garbage in Higashiura

Quantity of waste once in a day for 1 person

2019 473g → Target 429g

Request in throwing out the garbage.

- Burnable waste must be disposed until 8:00 in the morning on the collection day. Let's use the net, to cover the waste after disposal.
- Please be sure to put out the garbage in your area.
- Collection day might be changed on the year-end, New Year holidays, and bad weather day, so please check the public information, etc.
- The charge for burnable waste was started on April, 2019. Please cooperate in separation and reducing of waste.

For inquiry : Higashiura Town Office Environment Division (Tel. 0562-83-3111)

Waste not collected in town

Are not possible for disposal at the town garbage station

Waste come from the business (Garbage from business activities (Are not possible for disposal at the town garbage station).)

Waste comes from shop, restaurant, establishment, hospital, and factory. You need to bring General waste (combustible) at the clean center directly or ask town permission trader. Also, in the case of industrial waste, you need to ask trader who has a permission from the prefecture.

Large amount of waste

Temporary amount of garbage because of house-moving, big cleanup, etc. (In case that the household belongings are more than 5 items.) Please bring them at the clean center directly. However, you may ask a request of temporary large disposal material in a company which is a licensed trader of the town. (with charge) Please inquire at Environment Division regarding the licensor.

Difficult stuff to dispose (Stuff which cannot be disposed at the Tobu Chita clean center.)

Spring mattress, tire, motorcycle, piano, propane gas cylinder, fire extinguisher, battery, car relation parts, kitchen system, agricultural machine and implement, construction debris, cash-box, solar water heater, bathtub, electric water heater, store-room, and other dangerous stuff. Please ask the shop where you bought the stuff or special trader of waste to dispose.

Four consumer electrical appliances (TV, air-conditioning, refrigerator, washing machine, tumble drier)

At the shop where you bought the item or replacement shop. In case that the distributor cannot accept it, after remitting the home appliance recycle fee at the post office, bring it at the designated place or ask the town licensed contractor to please take it (with charge). (The home appliance recycle fee differs depends on the manufacturer and sizes.

Inquiry regarding the recycled home appliance.

ASUPA Free Distribution
Let's compost raw garbage by ASUPA and reduce the waste!
ASUPA is distributed at community center, Shukaijyo (Moriokadai and Hiraikedai), Fureai center, Fujie Kouminkan, and town office.

Classification Table of Household Wastes

Burnable garbage → **burnable** Non-burnable garbage → **incombustible** Recyclable waste → **recyclable**
 Bulky waste → **bulky** Waste not collected in town → **no collection** Ignitable waste → **dangerous**

Things longer more than 60cm of height, depth and width belongs to bulky waste. (However, garbage exceeding 2m is not possible for disposal at Tobu Chita Clean Center. Please contact the waste disposal specialists.)

Separate the recycled waste and dispose at the area station.

Accordingly the amount of garbage that was collected as recycled waste that was separately disposed at the garbage station will be added as a subsidy to the area where you live.
