# 2025.6.1~

# How to Separate and **Higashiura Throw Garbage in Higashiura**

Quantity of waste once in a day for 1 person

2023 Target 448g 429g

Burnable waste must be disposed until 8:00 in the morning on the collection day. Let's use the net, to cover the waste after disposal. Please be sure to put out the garbage in your area. Collection day might be changed on the year-end, New Year holi-

days, and bad weather day, so please check the public information, etc.

Request in throwing out the garbage.

For inquiry : Higashiura Town Office Environment Division (Tel. 0562–83–3111)

# Waste not collected in town

Are not possible for disposal at the town garbage station

#### Waste come from the business(Garbage from business activities (Are not possible for disposal at the town garbage station).)

Waste comes from shop, restaurant, establishment, hospital, and factory.You need to bring General waste (combustible) at the clean center directly or ask town permission trader. Also, in the case of industrial waste, you need to ask trader who has a permission from the

### Large amount of waste

Temporary amount of garbage because of house-moving, big cleanup, etc. (In case that the household belongings are more than 5 items.) Please bring them at the clean center directly. However, you may ask a request of temporary large disposal material in a company which is a licensed trader of the town. (with charge) Please inquire at Environment Division regarding the licensor.

#### Difficult stuff to dispose (Stuff which cannot be disposed at the Tobu Chita clean center.)

Motorcycle, propane gas cylinder, battery, car relation parts, construction debris. Please ask the shop where you bought the stuff or special trader of waste to dispose.

## **ASUPA Free Distribution**

Let's compost raw garbage by ASUPA and reduce the waste! ASUPA is distributed at community center, Shukaijyo(Moriokadai and Hiraikedai), Fureai center, Fujie Kouminkan, and town office.

<b>Classification Table of</b>	Burnable garbage→ burnal	le Non-burnable garbage	→ incombustible	Recyclable waste→ recyclable
Household Wastes	Bulky waste→ bulky V	/aste not collected in town-	→ no collection	gnitable waste $\rightarrow$ dangerous

Things longer more than 60cm of height, depth and width belongs to bulky waste. (However, garbage exceed-ing 2m is not possible for disposal at Tobu Chita Clean Center. Please contact the waste disposal specialists.)

Separate the recycled waste and dispose at the area station.

Accordingly the amount of garbage that was collected as recycled waste that was separately disposed at the garbage station will be added as a subsidy to the area where you live.
